Ceramir C-Block
CAD CAM Blocks

Pack of 5

\$351.45

inc GST

Ceramir CAD/CAM BLOCKS have a natural translucency due to their homogeneous glass-like structure.

They reflect light and, after a short polishing, have a high gloss surface that resembles natural teeth.

Ceramir CAD CAM BLOCKS offer a unique combination of strength, flexibility and aesthetics and can be used for a wide range of indications

Ceramir CAD CAM C-BLOCKS are chromatic blocks, corresponding to shades A0, A1, A2, A3.

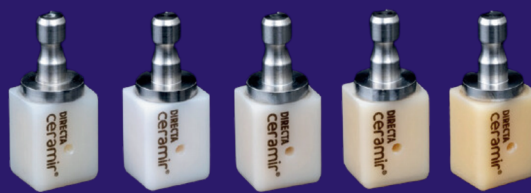

DIRECTA

Ceramir I-Block
CAD CAM Blocks

Pack of 5

\$455.40

inc GST

Ceramir CAD/CAM i-BLOCKS are used for precise and reliable fabrication of implant supported restorations.

They fit precisely onto titanium base (Ti-Base) or similar attachments so that the final restoration can be placed in the same appointment to save time and cost and to improve the patient's experience.

Ceramir I-BLOCKS can be used as screw retained single abutment crowns, mesostructure (abutment) and final crowns.

Yamahachi Blue Shine
Polishing Paste

NEW!

300g

\$66.00

inc GST

A high-performance, universal polishing paste designed for the final high-luster finishing of composite resins, metal alloys and acrylic materials.

- Exceptional polishing power, effortless luster and smooth finish.
- Odourless results in comfortable polishing experience.
- Efficient cleaning saves polishing time.

Yamahachi MP Powder
Polishing Powder

NEW!

1kg

\$44.00

inc GST

Yamahachi MP Powder is a high-purity, multi-purpose polishing alumina (aluminum oxide) designed for the initial smoothing and pre-polishing of dental appliances.

Suitable for composite resin and palladium alloys.
