Vittra APS Flow
Universal Composite

Vittra APS Flow is a multifunctional flowable composite resin, with the versatility to work in a wide variety of clinical indications.

High-gloss, high-polish flowable resin: Provides excellent aesthetic performance on anterior and posterior teeth.

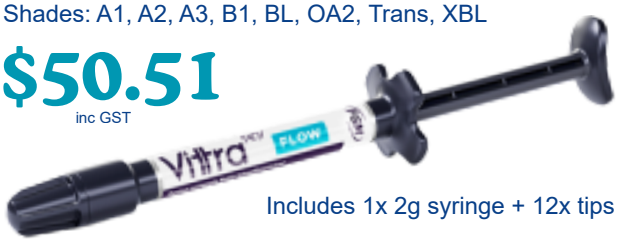

High filler content of 70%.

Spheroidal zirconia silicate: Greater mechanical resistance, easy polishing and long-lasting shine.

APS Technology: Colour stability, high degree of conversion and high mechanical properties.

Shades: A1, A2, A3, B1, BL, OA2, Trans, XBL

$50.51 inc GST

Includes 1x 2g syringe + 12x tips

Condac37 Etch
37% Phosphoric Acid Syringe 12.5ml

FGM DENTAL GROUP

Vittra APS Unique Flow
Universal Chroma Composite

Vittra APS Unique Flow is a light-curing fluid composite of low viscosity, with a single shade for all dental shades - achieved through the chameleon effect.

Recommended for small enamel defect repairs, restoration of minimally invasive cavity preparations, composite resin repairs, and, base under direct restorations.

APS Technology (Advanced Polymerisation System): Longer working time even under reflector light, more efficient light curing, increased mechanical properties, clinical longevity of restorations, high aesthetics and perfect mimicry.

Includes 1x 2g syringe + 10x tips

$38.50 inc GST

Condac37 Etch
37% Phosphoric Acid Syringe

2.5ml Syringe, Pkt 3
$7.92
inc GST

12.5g Syringe
$8.80
inc GST

Water-based gel containing phosphoric acid at 37%.

Excellent consistency: Does not run off the application site.

Good water solubility: Easy removal.

Differentiated colour: The blue dye facilitates control during application.

Ambar APS
Light Cure Adhesive

Light-curing adhesive system for **enamel and dentine**, with APS technology.
The adhesive is ideal for application in areas which are hard to reach, such as restorations in lower teeth or near the gums.

2-step conventional adhesive: primer and bond in the same bottle.

Characteristics:
Increased adhesion to enamel, healthy dentine and dentine affected by caries.

Greater esthetics.

BPA Free.

6ml Vial
$48.40
inc GST

Ambar APS Universal
Light Cure Adhesive

Self-etching light-curing adhesive system for **enamel and dentine** recommended for intracanal application.

It has enhanced MDP, resulting in increased adhesion strength and improved adhesive film stability.
Ambar APS Universal possesses all the qualities of Ambar APS, but maximised.

Characteristics:
High adhesion in different forms of application: total acid etching, selective etching on enamel and self-etching.

Adhesion to different types of surface: metals, ceramics, composites and fiberglass posts

Greater esthetics.

BPA Free.

5ml Vial
$68.02
inc GST

TwinWave
LED / UV-A Curing Light

With the TwinWave, VOCO presents a lamp that, in addition to the reliable curing of materials, also **features a UVA mode**.
This addition means that dental practices now require **just one device** for the polymerisation of dental materials and fluorescence detection using UVA light - making handling considerably more efficient.

Powerful dual function: Light polymerisation and fluorescence detection through UVA light in one device.

High performance: State-of-the-art LED technology with high output of 1,300 mW/cm2.

Lightweight and **handy design**: Metal housing, total weight only 75g.

Easy to use: Mode (light polymerisation, fluorescence detection) can be selected using a practical rotary switch, visualised with LED button.

Continuously ready for use: **Secondary battery** included.

$650.00
inc GST

Includes:
TwinWave handpiece, battery charger, power cord, 2 device bases, rubber shield, protective sleeves, protective glasses.

PARADISE DENTAL TECHNOLOGIES

Gleason Glide
Instrument Sharpening Ultimate Edge Kit

$385.00 inc GST

The PDT Gleason Guide is the easiest and most efficient stainless steel instrument sharpening and reshaping guide.
An **all-in-one tool** to sharpen a wide array of instruments.

Featuring **three beveled edge guides**: one side that is **Gracey** specific, one side that is used for **universal/sickle** applications, and an area to **reshape and sharpen the toe**, while also sharpening O'Hehirs, Chisels and Hoes.

This set includes Gleason Guide, Ping Ring (Sharpness Tester), and a fine Diamond Head Ceramic Stone for maintaining an instrument edge.

DIRECTA

Luxator P-Series
Titanium Pen Series

$220.00 each inc GST

Kit (P1, P2, P3 & P4) **$748.00** inc GST

Save over $100!

A **surgical periotome** designed for extraction by vertical luxation with the advantage of a penholder grip.

Titanium nitride coated stainless steel offers an extremely sharp blade requiring **no sharpening**, allowing extractions to be performed with a minimal amount of tissue damage.

The shape and pen-like action of Luxator P-series guarantees results with **less effort and force required**. The penholder grip design provides **maximum tactility**, sight and control, making the instrument very effective in achieving atraumatic and controlled extractions.

Mini STIPRS
Diamond IPR Strips

Rigid, Secure Fit: Ergonomic holders and handles, locking the strips firmly for complete stability.

Modular System: Handles attach and detach easily with left and right handed options for best control.

Clinician Comfort: Ergonomic design reduces fatigue while maximising control.

Colour-Coded Strips, for identification.

15% off!

DIRECTA ContactEZ IPR
Diamond Strips

The ContactEZ IPR Strip System is an innovative set of dental instruments specifically crafted to make **interproximal reduction** safe, fast and easy.

These flexible dental strips are **ergonomically designed**, patient-friendly, and **conveniently labelled** with specifications on every strip.

Designed for use with clear aligners and orthodontic treatments.

Autoclavable (steam heat only, up to 132 C for 10 minutes). Reusable up to 5 times.

HIFLEX
ZOE Impression Paste

$46.20 inc GST

140g Base & 70g Catalyst

A zinc-oxide eugenol based impression paste.

Suitable for:
Impressions for completely edentulous cases.
Impressions for partially edentulous distal extensions.
Relining of denture base.

Benefits:
Good detail reproduction.
Dimensionally stable.
Easy manipulation.
Optimal consistency.

DIRECTA

Calasept Plus
Calcium Hydroxide Paste

4x 1.5ml Syringes + tips

$84.92
inc GST

Calasept Plus is a **ready to use** paste in an airtight syringe for **direct and indirect** applications.

The smooth consistency of Calasept Plus simplifies direct application of the material with a small tip deep into the root canal for a **temporary root filling**, or for direct application on an **exposed pulp**.

PREVESTDenPro
THE FUTURE OF DENTISTRY

Cerafill RCS
Bioceramic Root Canal Material

2g premixed syringe + tips

$74.69
inc GST

Cerafill RCS is a ready to use, **injectable**, **premixed** filling and sealing material which is based on the bioceramic technology.

It is an alumina free, calcium silicate based material with excellent handling characteristics and superior physical properties.

This highly **radiopaque** hydrophillic sealer forms hydroxyapatite upon setting and chemically bonds to dentine. It sets with moisture naturally present within dentine.
