ALPINE DENTAL

NEW! edel white

edel white Easy Flex Interdental Brushes

Edel+ White's design features **flexible neck technology**. This allows the brush head to **tilt and adapt** to the specific angulation of the interdental space without deforming the wire core. This **reduces the risk of trauma** to the papilla (gum peak) and ensures the bristles engage fully with the tooth surface to disrupt biofilm.

Unlike single-use picks, the wire core is treated with a **specialised antibacterial coating**, inhibiting bacterial growth on the brush itself. This makes it a sustainable, **multi-use** instrument recommended for daily biofilm management in preventative periodontal care. **Rinse the brush thoroughly** after use. Thanks to the antibacterial coating, you can use it for up to two weeks.

edel white Flosserbrush Toothbrush Ultra Soft

UltraSoft Konex HD Bristles: Features **micro-fine, tapered bristles** that are up to 8 times thinner and 5 times more durable than conventional bristles.

Pressure-Free Technology: The **unique flexible handle** (SuperFlex) gently gives way to excess pressure, which prevents damage to gums and teeth.

Floss-While-Brushing Action: The fine tips penetrate lightly into interdental regions and along the gum margin.

Ergonomic Design: Includes a **long ergonomic handle** and **thumb support**, aiding a comfortable and precise 45-degree cleaning technique.

Sonic Generation #SG8+ Electric Toothbrush Complete Health Suite

AP100199

$142.79
inc GST

Complete Health Suite includes the handle, Dual Clean head, Focus head, Target head, and a premium travel case.

From the perspective of Edel+ White research scientists, the SG8+ Health Suite is designed for **Total Biofilm Management**. It goes beyond scrubbing, it changes the environment of your mouth.

The **high-frequency vibration** (up to 42,000 movements per minute) generates a fluid dynamic that penetrates up to 4mm beyond the bristle tips. This flushes out stagnant bacteria from interdental spaces and periodontal pockets, shifting the oral microbiome from inflammatory to healthy.

The Toolkit Approach: **Three distinct brush heads** because no single shape can clean everything.
Dual Clean: For efficient, broad-surface cleaning.
Focus (Round): For targeted cleaning of individual teeth, molars.
Target (Single Tuft): For precision disruption of biofilm in niches and gumlines.

4-Mode Intelligence: Sensitive, Active, Whitening, and the exclusive Yoga Mode for breath-guided relaxation.

Characteristics:
Hydrodynamic Generator: Award-winning motor creates powerful fluid dynamics for non-contact cleaning deep in niches.

Konex HD Bristles: 8x thinner and 5x more durable than standard nylon for superior reach and gentleness.

Travel Lock & Timer: Smart features like the quadrant timer and travel lock ensure a seamless experience anywhere.

Swiss Design: Ergonomic, non-slip handle with a durable Li-ion battery.

Flavours:
Simply Mint
Juicy Apple
Mango Jazz
Very Berry
Wild Peach

With Pop Teeth Whitening Strips, whitening becomes a flavorful experience!
Whiter teeth in just 30 minutes with **easy-to-use** gel strips.

The revolutionary **PAP whitening agent** in the gel strips makes teeth visibly whiter in just 30 minutes, without using potentially harmful peroxides.

The special formula in Pop Teeth Whitening Strips also **contains strengthening ingredients** and vitamins that nourish tooth enamel and gums.

7 treatments in a single pack.
14 individual strips (upper and lower).

pop. POP Whitening Toothpaste

This whitening toothpaste combines **daily cleaning with effective whitening** to give you a whiter smile, without any extra effort.

The modern **whitening agent PAP** whitens your teeth without relying on peroxide.
With fluoride (1450ppm) for active remineralisation of your enamel and cavity protection.

Fortifying ingredients and vitamins for tooth enamel and gums.

With a **fresh mint** flavour.
Suitable for daily use.

VOCO

TwinWave LED / UV-A Curing Light

With the TwinWave, VOCO presents a lamp that, in addition to the reliable curing of materials, also **features a UVA mode**.
This addition means that dental practices now require **just one device** for the polymerisation of dental materials and fluorescence detection using UVA light - making handling considerably more efficient.

Powerful dual function: Light polymerisation and fluorescence detection through UVA light in one device.

High performance: State-of-the-art LED technology with high output of 1,300 mW/cm2.

Lightweight and **handy design**: Metal housing, total weight only 75g.

Easy to use: Mode (light polymerisation, fluorescence detection) can be selected using a practical rotary switch, visualisation via LED button.

Continuously ready for use: **Secondary battery** included.

Includes TwinWave (handpiece, battery charger, power cord, 2 device bases, rubber shield, protective sleeves, protective glasses).
